

# Santa's Village \* North Pole

*10 December 2012*

*Dear Andy,*

*I would like to thank you and your Garden Team most profoundly for all your hard work in the Uppark stable.*

*Your woodland scene was wonderfully presented and I consider it to be the best 'Grotto dressing' I've experienced in all my seven visits to Uppark House & Garden! My small visitors and their families were also very impressed with your team's work.*

*One feature in particular stood out, that being the entrance area. This was very well planned and very effective for keeping my 'customers' occupied before coming into the stable itself!*

*I look forward to coming to Uppark again next year.*

*Again my sincere thanks to You and your Team and I wish you all a very **MERRY CHRISTMAS** and a **Happy, creative New Year!***

*Kind regards,*

***Father Christmas***
